DETAILED ACTION

Drawings

1. The drawings filed December 22, 2005 are informal.
2. The drawings are objected to because all boxes in the drawings should be labeled with descriptive legends. Therefore, the boxes in Figures 3 and 4 should be labeled.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Information Disclosure Statement

3. The information disclosure statement filed December 22, 2005 has been entered and considered. An initialed copy of the PTO-1449 by the Examiner is attached.

Preliminary Amendment

4. The preliminary amendment filed December 22, 2005 has been entered and considered. An initialed copy of the PTO-1449 by the Examiner is attached.

Priority

5. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

6. Claims 12-23 are allowed.

Examiner's Reasons for Allowance

7. The following is an examiner's statement of reasons for allowance:

The prior art fails to render obvious the claimed method apparatus for selecting SAR/MTI transmission patterns and evaluating a received signal of a SAR/MTI pulsed radar system that transmits SAR and MTI pulses with respective definable time variant pulse repetition frequencies such that the received signal includes a superimposition of

Art Unit: 3662

SAR and MTI echo signals including, inter alia, generating a SAR and MTI pulse pattern with equal or different SAR and MTI pulse repetition frequencies, using a SAR processing technique to evaluate each SAR echo of an area of interest, which echo is received after a transmitted SAR pulse, and evaluating remaining pulses of the received echoes in an MTI process, taking into account that some received MTI echoes are missing as operationally interconnected and functionally claimed. Clearly the prior art does not disclose the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art show various radar systems.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B. Sotomayor whose telephone number is 571-272-6978. The examiner can normally be reached on Monday to Friday from 8:30AM to 5:00PM.
